WEB 2890 Portfolio Website Feedback Evaluation Criteria

Name of Person Providing Critique: Sarah Scoresby

Position/Company: UX/UI and Graphic Designer at Live Tula

	Not applicable	Poor	Fair	Good	Excellent
Overall Quality of Portfolio Website					
Looks very well put together, professional in appearance					X
Shows creativity in design					X
Body of work shows required skills for employment					X
Navigation/Functionality					
Navigation clear and consistent					X
All links and buttons work properly			X When I tried to download your resume from your About Me page, it didn't work		
Media plays without problems	X				
Images are optimized for the web					
Website opens quickly and media displays quickly					X
Appearance					
Background colors/texture					X
Color scheme				X I would love to see the light pink you used in your logo used on your website, maybe instead of the green?	
Concept/theme/unified look					X
Layout - position of page elements, alignment, white space				X I noticed a text block that needed a slight adjustment (see below)	
Typography – fonts, text size,					X

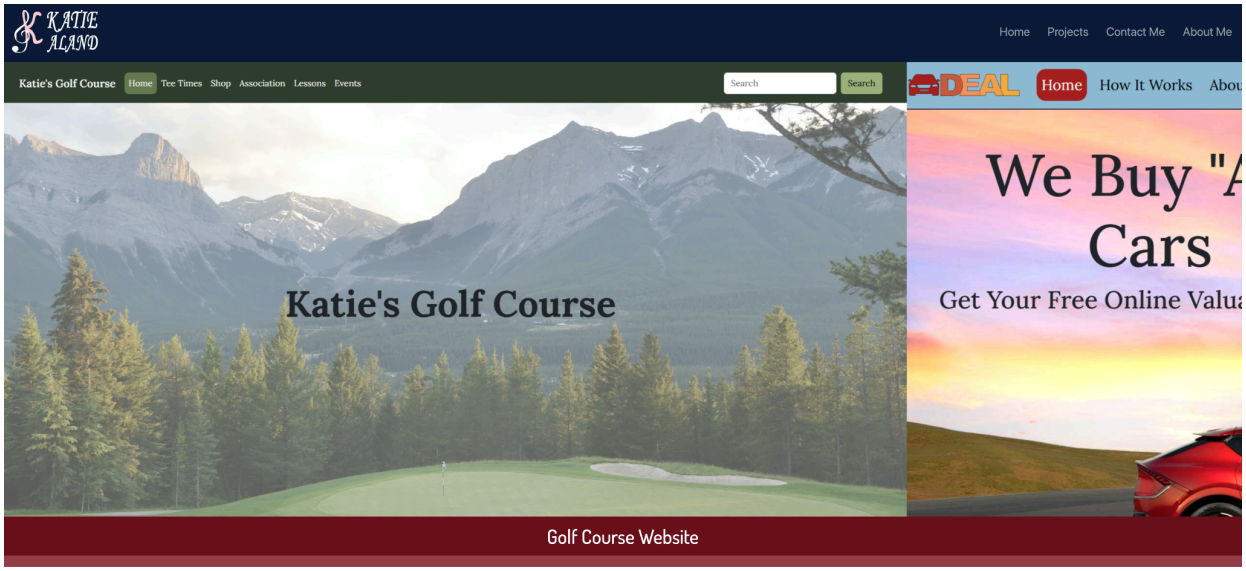
other formatting					
Images are high quality				X The homepage banner is slightly blurry, but that could also be a design choice!	
Projects are presented in an attractive manner					X
Content/Design of Pages					
Home page provides good first impression and introduction to portfolio website				X I think instead of the homepage image you have now, I would include a picture of you or maybe your photoshop image/art piece	
About me page					X
Portfolio gallery (thumbnails & captions)					X
Portfolio reflections/description pages					X
Contact page					X
Reflections (description of portfolio pieces)					
Content of reflections appropriate					X
Project images are high quality					X
Spelling and grammar are correct					X

What was your overall first impression of the website?

I really like it! I thought it was very clean and easy to navigate and I love how you created your own logo/brand for your site.

Did you have any technical difficulties as you navigated through the pages and displayed the projects?

I'm viewing your portfolio on a pretty big screen, and noticed some image issues on a couple of pages. I think the size/responsiveness is just a little bit off for a couple pages. I also noticed a slight formatting issue on your projects page. The titles for the last 2 projects are cut off by your footer. Resume wouldn't download



What do you feel are the most effective design elements of this web portfolio?

I think that your user research is solid! I can really tell that you make sure you know who your users are going to be, what their needs are, possible pain points, and their desired goals. I would say that your Aland Accelerando project is the most detailed and informative of your design process, I would try to make all of your project pages like this if you can!

I also really like your About Me page. It’s really nice to see all of your work and school history, where you are, and where you want to be. I also like how you included what your favorite parts of the design process are and how you included your personal style.

What would you suggest be changed with the design or content of this web portfolio?

I mentioned a couple things above, like changing the dark green to the pink you used in your logo, adjusting some formatting, and possibly changing your homepage image. I also would like to see your actual Figma prototypes. If you can include a link, that would be awesome!
